

Project Presentation

Team SYNERGY

Fahad Al-Emam, Kristin Hermann,
Joe Riley, Rung-Yu Tseng, Evan Zasoski

Problem 1

- The registration process at Hugh Spalding is confusing and can lead to excessive wait times.

Solution

- KIDS COW (educate/entertain)
- Registration KIOSK
- Waiting Room Re-Vamp

Problem 2

- It is difficult for parents/patients to self monitor chronic conditions
- Clinical information can be confusing/inaccessible

Solution

- Step by Step DASHBOARD

Problem 3

- Caregivers need to keep track of their patients for treatment/security purposes.
- Providing patients with the means of freely exploring the premises without worrying about their location.

Solution

- RFID tracking/way finding system.

Thanks for your attention!
